# **Transition Competencies Checklist**

## **Directions**

The Transition Competencies Checklist is a tool designed for you to complete independently. The Checklist can help you figure out your strengths (competencies) and weaknesses (problems) in areas ranging from personal management to your knowledge of career options. Once you know, you can decide what areas you need to work on while you are in high school to prepare for employment. You can use the Checklist to

help you set personal goals. There are no right or wrong answers—just what is true for you.

Please read each item (indicator) carefully and answer either yes or no.

Try to think of examples from your life as you respond. For example, if the item is “I perform chores at home,” think of the things you do to help out at home such as washing the dishes or putting away your clothes. If you are working with a teacher or counsellor he or she may ask you for examples when you share your completed Checklist. Please respond to each item.

There is no time limit for completing the Checklist—take as much time as you need to read and respond to the items. You may change an answer, if you have second thoughts and feel you should have answered differently. Remember—there are no right or wrong answers! If you have questions or need help understanding an item, please ask your parent, teacher or counselor.

## Transition Competency #1

An understanding of work based on real life experiences.

Indicators	Yes	No
I perform chores at home.		
I perform chores at school.		
I participate in community activities (food drives, litter pick-up, fundraising, etc.).
